THE SPIRIT OF THE SOIL

TEXTURES BORN FROM ANCIENT SANDS

Elegant Art

about us

Our craft is defined by an uncompromising commitment to authenticity and the preservation of nature's raw character. We believe that a home should be more than a shelter; it should be a sanctuary that resonates with the pulse of the outdoors. By marrying state-of-the-art engineering with the organic imperfections of the natural world, we transform surfaces into tactile experiences. When you choose our laminates, you aren't just finishing a room—you are inviting the timeless spirit of the wilderness to take root in the very foundation of your design.

ORIZON

Translating the golden light and enduring spirit of the savannah into a boundless landscape of texture for the interior world.

PRODUCT INFORMATION AND WARRANTY	
Technical Name	Decorative High Pressure Laminate
Size	1220 mm X 2440 mm (8' X 4')
Thickness	1 mm (Other thicknesses may available on request)
Quality Standard	Accomplish requirements of IS: 2046 (BIS)
Warranty	Ranberry warrants that their products are free from any manufacturing defects and is suitable to utilize for normal and usual purpose only. It is recommended that the product should be inspected prior to installation. If found any visual defects, the product should not be used, cut or altered in any manner. Warranty will be limited to cost of the products only and no claims will be entertained after fixing, alteration or used of the product.
Note	Samples presented are indicative in all aspects i.e., colour, pattern, surface finish, thickness, etc. High gloss sheets are recommended for vertical application only. Other Combinations of colour, pattern and surface finish are available on special request.

DIRECTION OF USE
Before using laminate please ensure that the surface of plywood and laminate are clean, dry and free of other contaminations.
Please well stir adhesive before use and don't add water in it. Also ensure that applied adhesive is sufficient or not?
Once laminate pasted on plywood surface don't forget to apply adequate pressure for perfect bonding. To remove air bubble from assembly use roller press from centre of assembly towards edge of assembly.
A gap of minimum 2 mm should be maintained between two laminates while pasting side by side.
